IRISH FREEDOM NOT QUESTION OF RELIGION DECLARES MAYOR OF THURLES IN ADDRESS HERE

RELIGIOUS ISSUE PURELY BRITISH PROPAGANDA — IN OWN CATHOLIC CITY, PROTESTANT MAYOR WAS ELECTED TWENTY-SEVEN YEARS — ARRESTED WITH 200 OTHERS

ELYRIA—Machinists' hall was filled to capacity last evening to hear the address by Lord Mayor Morgan of Thurles, Ireland on the Irish question. The mayor is a forcible speaker and presented the cause of Ireland in a manner that was clear and convincing.

He said that he did not deem it necessary to state reasons why Ireland should be a republic in view of the fact that it is now one, and that the republican government is now functioning in nearly every part of the island. He answered the charge that the whole question is one of religion, by saying that all but nine per cent of the people in that country have voted in favor of the republic, while about twenty-four per cent of the total population is Protestant, thus showing that a large majority of the Protestants are in favor of the republic. He also stated that for the last seventy-five years a large majority of the leaders for home rule in Ireland have been of Protestant faith. In speaking of his own city of Thurles he stated that he could count the Protestants of the city on the fingers of one hand, and yet his predecessor in office, a Protestant, who conducts the largest store in the city, was retained in office continuously for twenty-seven years by vote of the people.

He said that the religious issue is purely British propaganda and has been studiously and artfully pushed to the front in order to blind the real issue.

He told us that he and that of about 200 of his companions, of their being taken to London and being kept as prisoners in prison or several months without any charges being brought against them; of their repeated demands that they be placed on trial, and finally of their refusal to partake of food while so held, and of his final escape.

Mayor Morgan said that the cruelties which are perpetrated by the Germans were mild when compared with outrages which are now taking place in Ireland with the full knowledge and consent of the British government. Innocent men and women are murdered in cold blood. Private dwellings are riddled with bullets at all hours of the day and night, and no man, woman or child feels safe in their own home. When prisoners are captured instead of being treated as prisoners of war, some fake charge is trumped up against them. They are tried by court martial and shot.

He said that the Irish republic could soon be recognized by the nations of the world, and that the people of that country were almost united in their determination to fight until all British troops are withdrawn from the island and their oppressor for over seven hundred years is finally forced to join with other nations of the world in the recognition of the new republic.

ELYRIA—The fight between employees of the General Phonograph company following a joking bet, all broke in police court Monday morning.

ENGLISH CLERGY ACT UPON IRISH PEACE PROBLEM

British Officials Profess Ignorance of DeValera's Proposed Visit to London

By WILLIAM L. MALLABAR, I. N. S. Staff Correspondent.

LONDON, May 7.—English ecclesiastics of the catholic church are taking an important part in the new Irish peace movement. A meeting of prelates was held here this morning when it was proposed to send a delegation to Cardinal Bourne suggesting that the cardinal formulate an invitation to Eamonn De Valera, "president of the Irish republic," to come to London to canvass the whole peace issue. It has been reported that De Valera is on his way to London and would arrive today, but British officials professed ignorance of the proposed visit.

We will never cease to maintain that there is a community of interest between our countrymen in the northeastern corner of Ireland (Ulster province) and the people of southern Ireland," said DeValera in a conciliatory article which he wrote for the Irish Independent. This article was regarded in some circles as a peace feeler to the unionists of Ulster, an opinion that was borne out by the conference between DeValera and Sir James Craig, leader of the Ulster unionists at Dublin.

The Ulster unionists issued a manifesto suggesting that after the elections to the northern Ireland and southern Ireland parliaments, that both legislatures be combined to form a constituent assembly to arrange a settlement for the whole country.

Sir James Craig, in a speech at Belfast, Friday night, appealed for the support of the majority" so as to be able to speak constitutionally in behalf of Ulster province.

Goes on Second Venture for British Golf Title

Chick Evans, amateur golf champion, accompanied by his famous smile, but bereft of his equally noted "crutch" putter, recently sailed for Europe on his second venture to try to capture the British championship beginning May 23. Whether Chick is winning or losing it is hard to erase that smile. Perhaps it will be a bit broader when we see him again. It is a case of now or probably never with him, and every American golf enthusiast may depend on him to put up a fight at Hoylake that will be remembered by his opponents.

NARROW ESCAPE OF AVIATOR AS SHIP HIT TREE

OBERLIN—R. W. Lowell, the Oberlin aviator had a thrilling experience here Friday evening about 5 o'clock. He was taking up a new bi-yellow bi-plane for the first time. The plane fell on the ploughed ground of George Hallauer's garden just south of the residence of Miss Laura Lake and her sister, Mrs. Minnie Pitts on South Main. The only part not completely wrecked was the engine, and that suffered so much that it will be a costly proposition to repair it.

The aviator himself had a miraculous escape and was not seriously injured. Allen & Haylors ambulance was called and took him to the Oberlin hospital in a dazed condition. He left the hospital this morning. The airplane was insured.

BULLETIN

I. N. S. Staff Correspondent COLUMBUS, May 7.—Secretary of State Smith this afternoon refused to comply with the request made by Attorney L. D. Hamlin, Elyria, counsel for State Senator J. F. Burke, also of Elyria, that the secretary of state designate the size of petition blanks proposed to be circulated with a view to submitting to a referendum at the November election the Dunn emergency act providing for reorganization of state departments.

(International News Service.) COLUMBUS, May 7.—State Senator John F. Burke, Elyria, republican, has asked Secretary of State Smith to make formal declaration as to what the size of referendum blanks should be relative to the Dunn emergency act providing for reorganization of state departments.

Taking from the hands of Attorney L. D. Hamlin, Elyria, Senator Burke's counsel, a form of petition and a synopsis of Dunn act, Secretary Smith said he will take no official action in the matter until he has consulted with Attorney General Price.

Senator Burke, Bender, Cuyahoga, and Endry, Richland county, republicans, and Senator Reynolds, Cuyahoga county, democrat, cast their four votes registered against the emergency clause when it was adopted in the senate. Senators Burke, Bender and Reynolds voted against the bill proper, also.

It is expected that Attorney General Price will advise Secretary Smith to reject Senator Burke's application, that the secretary of state will comply with the attorney general's advice and that Senator Burke's attorney then will file suit in the state supreme court in an endeavor to have the court declare the emergency act unconstitutional and to order the secretary of state to take such steps as are necessary in connection with plans for submitting the Dunn act to a referendum at the November election.

Senator Burke, W. A. Alexander, Warren, and A. N. Wilcox, Paulding, member of the republican state central committee, are members of a referendum committee.

Counsel for Senator Burke include Squires, Sanders and Dempsey, Cleveland, and a number of Columbus attorneys and a member of the republican state committee.

It is possible that the democrats who are opposing the Dunn act may join their proposed litigation with the action to be brought by Senator Burke.

Wants Prosecutor To Protect Interests of Elyria Township

ELYRIA—The Elyria Township Trustees at its meeting today took action supporting Elyria Township Treasurer Otto Mischka in the demands that Elyria township receive its legal proportion of Crable Act fines assessed in the offices of the two Elyria justices of the peace.

The trustees instructed Township Clerk John Langton to write the sentiments of the board to Prosecuting Attorney L. H. Webber and requesting the prosecutor to bring such legal action as may be necessary to see that Elyria township gets its proportion of Crable Act fines assessed in the past as well as those to be assessed in the future.

The contention of Township Treasurer Mischka, if upheld, will mean the getting of hundreds of dollars from such fines and will enable the township to make much road improvement which cannot be undertaken at present because of financial difficulties.

The letter follows: Mr. L. H. Webber, Prosecuting Attorney of Lorain County, Elyria, Ohio.

Dear Sir:—

The Elyria Township Trustees at its regular meeting on Saturday, May 7, went on union record as favoring the movement and giving

ELYRIA—Officials of the Cleveland, Columbus and Southwestern Electric Co., and union carmen representatives continued to be dead-locked after a continuous seven hour conference held at Cleveland, Friday.

CIVIL SUITS ENTERED UPON COURT DOCKET

ELYRIA—Suit was filed in court today by H. H. Neptune against the Carroll Automobile Co., of Lorain. Judgment is asked for \$900.15 claimed to be due on a note. Treasurer Otto Mischka in the belief that Elyria Township is entitled to one-half of the fines collected and assessed in the offices of Justice of the Peace J. D. Hughes and Justice of the Peace S. J. George, under the Crable Act. Both of these men serving as justice of the peace are Elyria Township officials. It, as it appears that Elyria Township is due its one-half of fines assessed in the two above named justices of the peace offices under the Crable Act which it appears is now in the possession and turned over to the county, then the Elyria Township Trustees feel that you will do your duty to see that such monies are turned over to the Elyria Township and further if this contention is upheld, that any future fines assessed in the courts of the Elyria Township Justices of the Peace under the Crable Act, that the said Elyria Township through its legal right and according to the specifications of the law, be turned over to its authorized officials and said one-half of each fine.

The records of Elyria Township show that there has been but \$450 from the office of Justice J. D. Hughes turned over to the township, being the full amount of two \$100 fines. There have been an order made.

Lewis Loses
The Wrestling
Championship

NEW YORK, May 7.—A grappling error by Ed "Strangler" Lewis has today cost him the heavyweight championship. The wrestling crown is resting on the brow of Stanislaus Zbyszko, who pinned Lewis to the mat in the surprisingly fast time of 23 minutes 12 seconds. The men had been wrestling on fairly even terms when Lewis suddenly made a lunge at Zbyszko in an attempt to clamp on the headlock. The hold slipped over "Zibzy's" bald head and Lewis lost his balance falling flat on his back. In a flash the Pole was upon him and within five seconds was declared the victor by Referee Bothner.

McKinley Beats
East Side Boys

The McKinley school team played the East Side team Friday night on the McKinley grounds and won 4-1. Ben Dangelard an Alumnus of McKinley school, now a sophomore in High school, pitched for the former and Funk did the catching while Stewart pitched and Gilbert caught for the East Side. The only break of the game was that there was a misunderstanding between the two teams, the East Side went over to play the McKinley team and not a portion of the High school. Both pitchers were wild and there were many errors and bone plays. Ray, B. Dangelard, V. Barnes and Taylor, each scored once and Cheevers scored twice for McKinley, while Eversen and Cook both scored once and Gilbert tallied twice for the East Side. The two outstanding stars of the game were Gilbert and Cheevers, the latter having the edge. Gilbert's fine batting and catching were marred by his wild throws which let in two runs.

BOILS AND SORES ARE
RESULT OF SWIMMING
IN POND NEAR STOP 6

ELYRIA—A large number of Elyria boys are suffering from boils and sores, due, it is believed, from swimming in the stagnant pond located between Stop 5 and 6 on the Yellow Line. The boys afflicted with the boils and sores admit that they have been swimming in this pond. Earlier in the season during the warmer spell many Elyria youths walked to the pond, about two miles north of the city, for swims. These swims were said to have been a daily occurrence during the spring vacation. The water in this pond has no outlet and is used as a watering place for cattle.

Uniquely interesting will be the Pageant, "Witnesses to Missions in the Orient," by members of the Cosmopolitan Club, Oberlin College, directed by Prof. Philip D. Sherman. This feature will conclude the Conference program Thursday afternoon.

Life Work for Young People is the serious business of Wednesday afternoon. A session for young people carefully selected from the Churches of Northern Ohio will be held parallel to the main session. This "Future Leaders" session represented a departure from previous programs. Its purpose is to bring straight home to the mind of youth the opportunity of distinctive Christian callings, such as the ministry, parish assistant, educational directorship, foreign and home missionary service, etc. No feature of the program is anticipated with greater interest than this.

Interdenominational relationships will come up for discussion on Thursday under the title, "Necessary Co-operation in Kingdom Building in Ohio," by the representative of the State Federation of Churches. This will be followed by an address dealing with World Fellowship by the President of Oberlin college.

Social and Industrial: A symposium is announced for Thursday for "The Province of the Church and the Emphasis of the Preacher's Message in the Present Industrial Situation." In place of set addresses a lively discussion is planned of three-minute talks from the floor introduced by speakers notified in advance.

Commemoration: The Necrology of the year containing the names of those who have fought the good fight, kept the faith, and finished the course" will be presented on Thursday afternoon followed by an appreciation of the late Hubert C. Herring, Secretary of the National Council of Congregational Churches, whose death through accidental drowning last summer was an event of great sorrow and loss to the denomination.

Music: Attractive musical features have been plentifully provided. During the assembling of the Wednesday evening audience to hear Raymond Robins, the Second Congregational orchestra will play and later the full Men's Glee Club of Oberlin College will sing a twenty-minute program. On Wednesday afternoon introducing the service of Sermon and Communion, Dr. Geo. W. Andrews of Oberlin Conservatory will play a short organ program. Soloists are Mrs. Karl Reedy and Paul Harlan Metcalf, formerly assistant in the First Congregational Church, Elyria. Recreation and Sight-Seeing: Rotary and Kiwanis Clubs are paying the conference a fine courtesy of organizing committees in either club to take the guests automobile riding around the city. Many are planning to take the walk through Cascade park between five and six on Wednesday.

Social: The Conference begins with a reception to delegates in the parlors of the church Tuesday at 5:00. The Reception committee is composed of First and Second church members. Ladies of these two churches will serve the Fellowship Supper in the Gates room following. Afternoon tea, with opportunity for farewell fellowship, will be served in the parlors at the conclusion of the Conference program.

Exhibit: The Pilgrim Press of Chicago will be represented by the manager in person, A. A. Hagstrom with a complete selection of all kinds of religious books for devotional use, church school, child training, biography, etc.

DO YOU REALIZE THAT:

—The time when the battery "just wears out."

A GOOD battery, no matter what its make, dies a natural death when it "just wears out." It may never have a buckled plate or worn out separator or cracked jar. Yet the time comes when it no longer produces power. It has "just worn out."

That happens when a certain quantity of power-producing active material has dropped off the positive plates.

IN the Philadelphia Diamond Grid Battery this is prevented by the Philco Slotted Retainer.

The battery is guaranteed for two years.

There is no other guarantee in the battery field that compares with this for length and liberality.

LORAIN CHURCHES TO OBSERVE MOTHERS' DAY BY BEAUTIFUL AND IMPRESSIVE SERVICES

LORAIN—Mothers' day will be more largely and impressively observed here on Sunday than ever before, according to plans made by practically all the churches. Pastors will deliver special discourses and choirs programs befitting the occasion. The women of the various congregations will decorate the auditoriums of the edifices with flowers—white and pink blossoms and buds in honor of the mothers who have passed away and those who are living.

It is anticipated that there will be a large outpouring by mothers to the places of worship, while many who do not attend church regularly will also be present to pay sacred respect to their mothers.

Superintendents of the Sunday schools and teachers will deliver talks to the children upon the observance, while laymen will also speak before some of the congregations.

Local florists have profusions of beautiful flowers displayed, including carnations, that there may be sufficient "emblems of beauty" for all who wish to pay tribute to their mothers by wearing a flower or sending her a potted plant or a bunch of cut flowers.

They picked out a color, and then took the first paint they could get that color in. The color was all right, but the paint was all wrong.

If they had first decided on the right paint, it would have been easy enough to get the right color in that paint.

TO MY MOTHER

Her eyes, prayer-pure, are on my eyes. Her Breast is trembling with the sigh that stirs my own.

Swift on sweet missions are her feet. Alone She toils and sings, and gladly gives her best Ah, sacred, all! But more than I can bear Will, some day, be that dream-touch on my hair.

OBERLIN NEWS

MUSIC FESTIVAL AT OBERLIN

OBERLIN—The May festival of the Oberlin Musical Union was inaugurated Friday night with a concert in Finney chapel by the Cleveland Symphony orchestra. The program offered a wide scope for a disclosure of the skill, resource and versatility of Conductor Nikolai Sokoloff and his musicians.

Beginning with the Beethoven "Leonore" overture, No. 3, the program was thenceforth devoted to works of modern composers. The most extended number was Dvorak's "New World" symphony, imbued with the spirit of the letter of the quind and touching music of the southern negroes.

Richard Strauss' "Death and Transfiguration" closed the concert, to which a flavor of novelty had been imparted by an excerpt from Rimsky-Korsakoff's opera, "The Golden Cockerel."

The soloist was the tenor, Theodore Karie, who had appeared the previous evening in a Singers Club concert in Cleveland.

He was heard in "Cielo e Mar," from Ponchielli's "La Gioconda."

SPEAKER TO TALK ON SHORTAGE OF NURSES

OBERLIN—An alarming situation confronts the nation in the present shortage of trained nurses. To meet this need a nation wide campaign is being undertaken by the American Nurses' association, the National League of Nursing Education and the national organization for Public Health Nursing, together with the American Red Cross.

A representative of these organizations, Miss Gladwin, who has done Red Cross work overseas and has had large experience in nursing, will address a meeting for women and girls at the James Grand House, Wednesday, May 11, at 4 p. m.

Women of Oberlin are asked to represent to learn what they can do to help.

OBERLIN CLUBS

The most regular meeting of the Russia Club will be held Friday, May 12 at the home of Mrs. Peabody. A full attendance is desired as matters of importance will be discussed.

The last meeting of Sorosis for the season will be held at the home of Mrs. Henderson, 271 West College street, Tuesday, May 10 at 3 o'clock.

The Woman's Christian Temperance Union will meet with Mrs. O. F. Peabody, 61 North Pleasant street, Wednesday, May 11, at 3 p. m. Miss Marion Metcalf will speak on "Nicotine Next."

This does not mean, as has been falsely represented that the W. C. T. U. is working for a constitutional amendment against tobacco, but that they are, as they always have been, seeking to warn the young against its injurious effects.

The W. C. T. U. has just closed its annual essay contest in the public schools and hopes to announce the names of the prize winners in a few weeks.

The Woodland Avenue Thimble Bee will meet with Mrs. Taylor, on Thursday afternoon, May 10.

The North Professor Street Mending Bee will meet with Mrs. S. L. Gulick, 144 North Professor street, Thursday afternoon, May 12.

RELIGIOUS EDUCATION CENSUS SUNDAY AFTERNOON

One of the first plans of the newly organized community council of Religious Education is to promote a religious census of the Oberlin community next Sunday afternoon, Mother's Day. The plan has the support of every Protestant church in the community. The village and its outlying districts have been divided into sixteen sections geographically, every house in which is to be visited between two and four o'clock Sunday afternoon.

Each pastor in the village will be furnished a complete list of individuals and families, giving preference to his church. A similar report will be made to the superintendents of various church schools. It is to be hoped that a card catalogue will be developed, which will include the name of every young person in the community.

The college dormitories are included in this census and a good number of students have accepted the invitation to assist in the work of gathering this information. The committee of the community council which has charge of the census includes Professor G. W. Fiske, Rev. John L. Lobingier and Rev. Herbert D. Rugg. All the persons invited to assist in this canvassing are requested to meet with their team captains for the full instructions at Council hall promptly at two o'clock Sunday afternoon.

BILL PRESENTED WHICH WOULD MAKE ALL HOBOES WORK

WASHINGTON, May 7.—The National Hoboes' Union probably will be sore on Representative Baker, of California, when the word spreads around about what he has done to them.

Acting on the impulse, perhaps, he has dealt the side-door fraternity what amounts to be a considerable wallop.

The hobo can ride on most trains and through most states without risking anything more than being shoved off the rear of a fast moving boxcar by a hard-boiled "brakie," or perhaps being arrested while slowly disengaging himself from a brake-beam in the freight yards. If he is arrested he stands to get a few days free board perhaps and then sent on his way. That is, he can now.

But not if Representative Baker has his way.

The congressman from California has introduced a bill in the House providing that a hobo who "hops" a train in any state can be arrested and insulted with the request that he fork over anywhere from \$50 to \$1,000 fine. And if the hobo doesn't happen to have his checkbook handy, in-

stead of the old familiar "thirty days," he can be put in one place for a solid year's residence, with daily labor and enlarged mosquito bars at the windows at night.

TWO PAIRS OF TWINS ARRIVE

(By International News Service) LOS ANGELES, May 7.—The birth of two sets of twins in the same house within 24 hours, in which one pair was left with one family and the other pair with another parents, was the unusual achievement of the stork in a recent visit he made at Los Angeles.

Mr. and Mrs. A. H. Warren are the proud parents of one pair of the quartette of babies. The second visit of the stork a few hours later at the home of Mr. and Mrs. Horace F. Morency was tinged with sadness, for one of the infants died a few hours after its birth.

CINCINNATI, May 7.—The annual report of the A. F. of L. will likely be taken up at the second day's session of the executive council today. President Gompers would give no definite information as to what the meeting would deliberate on today but said everything was in good shape.

READ THIS OVER

SOUTH BEND WATCH COMPANY South Bend, Indiana Feb. 10, 1921

Dear Sir:—After you left my office this morning it occurred to me that possibly I did not make myself entirely clear as to why I am not opposed to a just and reasonable increase in the rates of the local electric light and power company.

We are big users of electricity for power as well as light in our factory, and naturally we aren't anxious to increase the cost of anything which we buy or use, unless we benefit from the increase. Now, here is just how I think we will benefit.

Public utilities are not essentially different from your plant or ours. Unless they can get a price for their product that will bring them a fair return on their investment they must naturally let their plant and their service deteriorate, and might eventually even be forced to temporarily suspend operation. Such a result would greatly inconvenience all users of their service.

You and I know how our costs have gone up during the past two or three years. We aren't selling our goods for the same prices which prevailed before the war. We couldn't do it and continue to operate. Then why should we expect the light and power company to do the impossible.

As manufacturers of high grade watches distributed thru more than 12,000 jewelers in the United States, we feel a responsibility to this big army of dealers in keeping our plant moving at a pace that will keep up with the demand for South Bend watches. From both their standpoint and ours, it seems to us that it would be a penny wise and pound foolish policy to try to save a few cents on our power cost and run the chance of ultimately getting poorer service or none at all. We are not in any way financially interested in the Indiana & Michigan Electric Co., but do believe in treating them as well as all of our other business associates, fairly.

Think it over and see if the same thing does not apply to your own business in much the same way.

Yours truly, (Signed) F. H. WELLINGTON, General Manager

THE HOUSING SHORTAGE

Believing that the public are entitled to full information on a subject of such general interest as the building industry we wish to place before you our reasons for requesting that building trades labor take a 20 per cent reduction in wages.

First---War time conditions have passed the PERIOD OF READJUSTMENT is HERE, and in order that this period of readjustment be as short as possible WE MUST ALL DO OUR SHARE.

Living costs have been radically reduced, clothes cost LESS, food costs LESS. YOU KNOW IT.

FEWER DOLLARS will buy as much as the dollars received last year. Substantiating our statement that living costs have been reduced, we submit here a list of groceries as sold by Lorain merchants on April 26, 1920 and April 26, 1921.

	April 26 1920	April 26 1921		April 26 1920	April 26 1921
Granulated Sugar, 2 lbs.	\$.38	\$.18	Prunes, medium size	.20	.12½
Pillsbury Flour, 1-8 bbl.	2.10	1.30	Navy Beans, lb.	.10	.06
Potatoes, 10 lbs.	.80	.15	Rice, lb.	.17	.06
Bread, 24-oz loaf	.12	.10	Evaporated Milk	.12	.12
Coffee, pound	.45	.35	Canned Peas	.15	.12
Tea, pound	.50	.50	Canned Corn	.15	.10
Creamery Butter, lb.	.74	.49	Canned Tomatoes, lg.	.20	.12
Fresh Eggs, dozen	.49	.28	Canned Salmon, pink	.20	.15
York State Cheese, lb.	.40	.35	Canned Peaches, lg.	.40	.25
Oleomargarine, lb.	.38	.27	Ivory Soap, large	.14	.12½
Pure Lard, lb.	.28	.15	Fels Soap	.08	.06½
Compound, lb.	.28	.12	Werk Soap	.08	.07
Crisco, 1 lb. can	.35	.19			
Corn Meal, 3 lbs.	.18	.12			
Rolled Oats, 3 lbs.	.20	.12			
				\$9.64	\$6.03 ½

Saving on this amount of groceries \$3.60 1-2 or a reduction of 37.4 per cent.

Shoes and clothing have declined fully as much, and when we ask A REDUCTION OF 20 per cent the 80 per cent remaining has a 17 per cent larger PURCHASING POWER than the dollar received last year.

The FARMER, the MANUFACTURER, the MERCHANT and the BUILDING MATERIAL DEALER have all responded to the call for lowered prices and have done their part by selling at cost and less than cost their accumulated stocks and merchandise. In some manufacturing lines, labor has done its share and the PEOPLE OF THIS COMMUNITY HAVE THE RIGHT TO ASK THAT LABOR IN THE BUILDING TRADES DO THEIR SHARE along with material dealers and contractors and bring building cost back to normal in order that the present housing shortage may be relieved and rents reduced.

The Employers Association has endeavored during the past three weeks to come to an amicable agreement with the locals in regard to accepting a reduction in wages, but have been unable to secure a definite statement from the local unions other than that they demand that last years scale be paid during the ensuing year.

This is in fact a demand for an unjustifiable increase for the year 1921 when other wage earners, manufacturers, retailers and jobbers have accepted the downward readjustment and are doing their share toward lowering the cost of living.

It is not fair that one group or industry be allowed to block the return of normal conditions and this association insists that the Unions of this city meet with us in an endeavor to get building under way. In the absence of such action by the local Unions we will feel free to prosecute building operations on a basis of just compensation to such mechanics as are efficient and willing to work.

Dancing plays a big and important part in the current production of Al G. Field Minstrels, which is to be seen at the Rialto theater Monday night, May 9.

The Field company has honestly earned its fame as including in its personnel the best dancers on the American stage today. During the hot weeks of the past summer, in spite of a soaring mercury, the Field terpsichorean battalions were at work, perfecting new steps and movements for the present production. Of course, the enterprising old-fashioned favorites in soft shoe, buck-and-wing and clog steps, forms of dancing which will never grow unpopular. The picturesque and half-barbaric dances of the Southern plantation darkey, the hornpipe and other dances of the Jack Tar and other forms of "footwork" make up much of the program of entertainment, and without it the Minstrels would be woefully lacking, as every lover of minstrelsy will agree. JUNIORS FETE SENIORS; BANQUET AND ENTERTAINMENT

The junior class banqueted the senior class last evening in what proved to be one of the most important high school social events of the season. The seniors on arriving were ushered into the gymnasium which had been prettily decorated for the affair. A delicious four course dinner was served by the under classmen. During the dinner a group of prominent musicians furnished music. After the lunch which was served by the mothers or members of the junior classmen a series of speeches and a varied entertainment was presented. Theodore Neumeister acted as toastmaster and introduced members of each class who responded with toasts. Following the speeches, members of the junior class presented a short play and a musical performance. The entertainment lasted to a late hour.

ELYRIA—The 7:30 car on the Grafton division of the C. S. & C. jumped the track on 16th street this morning, delaying traffic for about an hour. No one was injured as the car was running slow. Another car jumped the track last night with similar results.

A new type of car wheel and the use of a girder rail is said to be the cause of the derailments and Supt. Humphrey states that the track will be relaid and put in good condition within a short time.

STRAND

A GIRL'S AMBITION

She was the last of a once proud, old southern family. Her mother ran a boarding house in a shiftless little town below the Mason-Dixon line and the girl felt that life held nothing for her unless she got away and lived the life of the big cities.

Nearby was the ultra-fashionable Jefferson Hotel and Country Club, patronized by so-called society, a class with more money than morals. An invitation to a costume ball at the Jefferson opened the door to the girl and soon she was in the mad whirl of society, married to a real man.

When misfortune overtook them she found that some men were not adverse to giving money to attractive women and she laid her plans, as she thought safely and carefully. But was she able to obtain enough funds to permit herself and husband to live in luxury as they wanted to? And was she able to keep her husband when she set her plans in operation?

You'll find such questions answered, and much of very deep interest, in "A Woman's Business" starring Olive Tell, which comes to the Strand theatre tomorrow and Monday. It's a most unusual and out of the ordinary photo-dramatic story in many ways.

The night before he had been the great musician, playing to rapturous thousands. Now he was just a plain old mother's "baby" playing to her and the girl he loved. Perhaps he should play no more—perhaps not see them again.

So he played "Humoresque"—that laugh on life, with a tear behind it—and was gone! . . . where? . . . Why?

ELYRIA SOCIETY

Librarians And Speakers Make Interesting All-Day Session

ELYRIA—The all-day convention of the librarians of Ohio held at the Y. M. C. A. on Friday was most successful, both from the standpoint of knowledge and ideas gained and as a social gathering. The program was in charge of Miss Peterson, Elyria librarian, who also had charge of the meetings. The morning table conference held in the room of which Miss Louise Fast was chairman, was filled with enlightening talks on the many subjects pertaining to the up-keep and standing of the public library. There was an open discussion of the use that small libraries can make of documentary books and opinion seem diversified. Miss Stiles of Cleveland talked on book-binding in an interesting and educational way. Mr. Vitt of Cleveland, illustrated the impossibility of some books that are found in many of the libraries.

This ended the morning session and all adjourned and luncheon was served. For this occasion, Mrs. Peterson had secured some speakers that were not librarians, for the purpose of getting outside opinion of the library. A. L. Garford, who is president of the Elyria Library Board gave the welcome in address to visiting librarians and his talk was exceptionally well presented. A short talk was then given by Miss Phyllis Duckett on the relation of the libraries to the newspaper and Rev. W. L. Burner followed with an address on "How Libraries Could Best Serve the Needs of Community." A very interesting talk was given by Miss Minerva Robbins, Y. W. C. A. secretary, when she imparted some-what of the knowledge she has gleaned of the factory girls, telling the librarians how they can best help these girls to better themselves in the way of deeper education.

After luncheon the librarians again adjourned for discussion and Mr. Vitt spoke on the new bill that is pending on the library for county districts. An especially entertaining talk was given by Miss Litter on the Education of the Foreigner and this was followed by the Foreigner on Poetry and Essay. Thus ended a meeting of much interest and discussion and Elyria is proud of her part in helping in any way possible to better the conditions of public libraries.

Nurse to Address Y. W. C. A. Girls

ELYRIA—All "Y" Girls and others interested are asked to be sure and plan to hear Miss Gladwin Red Cross nurse, Tuesday evening, May 10th, at 7:15 o'clock in the Y. M. C. A. gymnasium. She has had many an interesting and really amusing experience over sea and will prove the following statements to her hearers in such a way that there will be no doubt of the great necessity there is in the world at the present time for trained nurses.

Institutional Work As superintendent of a hospital or school of nursing, as head nurse in hospital wards or operating rooms, as supervisor of dispensaries and clinics there are always opportunities for rapid advancement.

Educational work As a nurse-teacher in schools of nursing and as an instructor in Red Cross courses in home care of the sick, demand far exceeds the supply.

Public health As visiting, school, child welfare, medical social service, and industrial nurse, there are unlimited opportunities for full expression and use of all one's intellectual faculties, executive ability and instinct of service, since public health nursing has become vitally important in the public health campaign.

Private duty As a private duty nurse, the scope for usefulness is limitless. Contact with the individual and the family and her service to them makes her a strong influence in the public health of the community.

Governmental service As an army, navy, federal public health or Red Cross nurse, a young woman may serve her country in peace and in war, at home and abroad.

Missionary work Home missions in Labrador, Alaska, the mountain regions of the south, and the Indian reservations need nurses. Foreign missions in China, India, the Near East and elsewhere call unceasingly for nurses.

Home life As a mother, wife or sister, a nurse's training lays the best possible preparation for a satisfactory family life.

Mother-Daughter Banquet Success

ELYRIA—The first mothers' and daughter banquet ever held in any of the circles of the M. E. church was given by the Laurel Club on Friday at 6:30 o'clock. The banquet was a four-course one and these young girls cooked it themselves, spending much time and effort with the result of an excellent dinner. The dining room was very prettily and appropriately decorated with palms, ferns and the tables were graced with vases of beautiful pink double-hawthorne blossoms the color scheme being carried out in pink and white.

Mrs. Clara Cook gave the blessing after which all joined in singing a well-known song. Ruth Melton, president of the Laurel Club, gave a toast to the mothers and Mrs. Samuel Beal as a mother, responded to this toast.

After the dinner, a short and very interesting talk on "The Mother's Relation to the Daughter," was given by Mrs. W. B. Winters. A toast by the mothers was next and this was followed by a song selection of Mrs. Clara Cook, the song she sang being of her own origination. The Laurel Club Orchestra rendered several appreciated selections and the rest of the evening was devoted to games and a social time. The girls and their mothers enjoyed one of the most pleasant evenings they have had for some time and more are enthusiastically being planned for since this proved to be such a real success.

Ted Robinson to Address College

ELYRIA—The second annual Alumni banquet of the Elyria Business College announces that they have this year, for their entertainer, the humorous and worthy Ted Robinson of Cleveland. They feel that now there need be no other announcement made, but that all members of the college, present and past, will want to be there. A splendid program has been arranged and the menu of the dinner which is to be held in the dining room of the Elks will compose the best of what chefs can offer. The committee in charge of all arrangements are Roy Morgan, Harold Smith, Gladys Standen, Raymond Draegert, Pauline Beck, Vera Hall and Donna Dyer.

R. P. Vaughn Addresses Association

ELYRIA—The Jefferson Parent-Teachers' association held its last regular meeting of the year on Wednesday afternoon at the school. A piano solo by Miss Decker was the first number on the program. This was followed by a reading "The Colored Washerwoman," by Mrs. E. A. Hubbard and was much enjoyed by all.

The speaker of the afternoon was R. P. Vaughn. His remarks were both timely and to the point and his address made one feel that Elyria is indeed fortunate in having R. P. Vaughn as principal for the local high school. The desire to co-operate with Mr. Shelton and Mr. Vaughn in regard to moral dress and dance reform in the local schools was expressed by the association through the chairman. It has been the custom for this school to hold an annual lawn fete. The same is to be held this year, the place to be decided later.

In appreciation to Mrs. Wingard for her services as chairman for the past three years the association presented her with a beautiful picture and a piece of hand-painted Nippon.

Refreshments and a social hour concluded an altogether enjoyable meeting.

NICKERSON—TITE ANNOUNCEMENT
Mrs. George Brown Nickerson of Roxboro, Massachusetts, announces the engagement of her eldest daughter, Louise, to Mr. Elzie Edwards Tite of Elyria. O. This announcement will prove most interesting to the many friends of both parties.

GARDENS INTEREST CHILDREN

ELYRIA—Even the little tots are interested in having a garden of their own as is shown in the following subscribers of the Gates school to the Home Garden Association of which A. E. Adams is the chairman. Each pupil, small and large, are planning to get out, dig up a garden and little booklets on the subject have been issued for the benefit of the school gardeners who are proving to be most enthusiastic. The reading matter given them is of such a nature that it can be easily digested, being presented in a very simple manner.

The following pupils are the enthusiasts who are enrolled in the membership at Gates School:

Newspaper Social A Great Success

ELYRIA—The newspaper social held last night by the First Congregational young people's department was a great success. The party was the outcome of a loyalty contest which was put on not long ago and the six losing classes were entertainers for the five winning classes. About sixty young people were present.

To come to the party each had to wear a newspaper as some part of the dress. One little girl had an entire dress of paper, while others had a hair ribbon or shoe buckles or caps. Some very clever and original ideas were brought out in some of the costumes.

As it was a newspaper party it was thought proper to start as a newspaper story. The first thing on the program was the headlines in charge of one of the losing classes. These which were all concerning some members of the Sunday school were very clever and caused much laughter in the audience.

The second thing in the paper, so the chairman, Miss Margaret Brown, introduced was the comic column, which was in charge of one of the older boys' classes. There were some very good and clever stories and the judges and the professors and his son with their wonderful paintings and stories, and the humorist. Lastly came the advertisement page, in charge of one of the girls' classes. Some well known advertisements were pictured out with fine success.

The newspaper which was the main feature of the evening was by far one of the most clever ideas that have been put on in some time. The committee in charge, its advisers and those in charge of the stunts deserve much commendation for the manner in which the party was conducted and also for the rest of the entertainment which consisted of several lively newspaper games. At the conclusion of the program refreshments were served.

SWIMMING TIME CHANGED
ELYRIA—The swimming classes of the industrial girls of the Y. W. C. A. which have been held on Saturday evening, have been changed by popular consent and vote to Wednesday evening. This is more than likely to be highly satisfactory to a good many and more members are anticipated.

LORAIN SOCIETY

'Springtime' to Bring Back the Olden and Golden Days Gone By

LORAIN—Like a "Cheer Up" party presenting a ludicrous, grotesque representation of exciting laughter is the presentation of the triumph travesty "Springtime" by members of the Girls' Community club, May 16, 17 and 18, at the Lorain Opera House.

The gorgeous days of bustles, the Colonial the rangey hoops will come back to us capped by the elaborate creations of 1921. With the casts and settings making the old times rub their eyes and shake their snowy beards and not at all sure of their bearings when figures gallop in robes of a century stride the superbly set scenes to "set over" to the audience the unravelling plot of a decade.

In a quaint old village in upstate New York, where through the dig-nitary impressions of a stern father a blighted romance of the pretty daughter occurs, only to be unraveled through the union of the grandchildren in 1920. Irene Schnitzler will accept the part of the blighted social butterfly, who, through the course of ages, is responsible for the sweet ending of the production. "Bob" Engelhart popular favorite, will be included in the supporting cast.

Costumes, each of which bears a separate history and prized as heirlooms by several prominent local citizens will be worn in the play. They are now being featured in the display windows of the Lorain Dry Goods company.

THE STRIKES AND THE OUTCOME

On one pretext or another there are serious labor disturbances all over the country. In many of these disturbances the object is frankly stated by the employers as being for the "open shop," the destruction of unionism. In others the object is hidden, but is believed to be the same.

There has been a determination on the part of many leaders in industry to crush the organized wage earners for many months. The fight is probably on to that end. Undoubtedly many will sympathize with the efforts of the employers. Wages in some crafts have been sustained to a very high mark and there has been arrogance shown in respect to the amount of service rendered and hours worked, which have been almost unbearable.

At the same time during this same period employers have made the greatest profits as a rule in their history and there has been apparently a studied effort to direct the public mind from these profits and the amounts added to laborers wage before it reaches the actual consumer.

It seems unconscionable for some craftsmen to charge \$1.00 or \$1.25 per hour in the midst of a great depression. But if it be true that a man ought not to charge his employer \$8 a day for his labor, it is equally true that the employer is not entitled to charge the customer \$12, or four dollars extra for supplying that man to the customer.

The greed and unfairness is not confined to either side by any means and there are many exceptions to the apparent unfairness of each.

The workers undoubtedly feel that had they started the fight against the employer, in some cases at least, to break up the employers associations of one kind and another on the ground that the differences charged the customers for labor was outrageous, that they would have the sympathy of the public in so doing.

Be that as it may, nothing contemplated will be permanently gained by either side in the war now being waged.

There will be something gained in the long run however. The public will be the gainer in the end.

The cause of costs in the building trades is already being seen. There will be an insistent demand by the public that the work shall be done without adding fifty per cent to the cost of labor, simply for supervision.

The price of labor is bound to be reduced. As we have repeatedly declared a man getting twenty-five cents per hour cannot pay for any article at the rate of \$1 per hour for the other man's time without in the end the apparent unfairness and inequality, working havoc with the law of exchange.

For the employer however to imagine that he will break up the organization of wage earners and will keep them broken so that he will be able to deal with the employee stripped of the strength which arises from standing together; if the employer believes he can take him finally in his individual weakness and force him permanently to stand alone and unaided and accept whatever he can get, in a relentless war of competition with all his fellows for the job, the employers are much mistaken.

It is entirely possible that temporarily such a condition will result but the right to combine is not only a legal one but the desire to join with our fellows in a common cause is inborn in humanity. We all have it. The employers have it. The employee has it and it cannot be crushed in any body of men.

Out of an effort to crush human nature there is bound to be a reaction which will assert nature's right and power to a more secure position than before and this has been the history of attempting to kill labor unions. They have only come back after every reverse purged by their mistakes of false philosophy but stronger than ever.

Wisdom will be gained by this experience. Experience may be a hard school master but it is a thorough one.

Germany has within the past few months, or to be exact three years been served with ultimatums to perform certain obligations at certain times and make specific replies at other designated periods that it has come to be somewhat of a joke and no doubt the Germans are laughing in their sleeves at the manner in which they have befuddled the allied powers at every turn.

Instead of harping on the subject of the loss of a great ocean trade many of the well meaning people in this country would apparently do much better service to the nation if they set about in a wholehearted way to devise means of clinging to the ocean traffic we already have and then building up some more.

Possibly there may be a few people who from their frame of mind are still concerned in the Stillman divorce. But on the whole the great majority of the people are heartily sick of its daily parade and would not feel

THE MESSAGE FOR YOU IN ADVERTISING

Two Thoughts

One Man's System

An Editorial On Advertising

We were in a manufacturer's office one day just as his mail arrived. And as he hastily sorted it over, putting personal letters and orders in one pile and advertising matter in the other, two thoughts came to our mind.

Our first thought was that maybe there is a deal of truth in that old saying, "A lot of advertising is wasted."

But our next thought was, perhaps, in that discarded pile of advertising matter the man behind the desk was missing a heap of something of value. He was probably missing something which, if he availed himself of it, would enable him to turn out from his factory better goods at the same cost, or, perhaps, materially reduce his present costs.

Yes, we soliloquized, a lot of advertising is wasted and, like the manufacturer, lots of readers of newspapers and magazines are missing many times a "good thing," because they do not read their advertising carefully—because all advertising looks alike to them.

No doubt there are many readers of this very paper who are passing up chances to reduce living costs, to better their homes, to, indeed, find a happier brand of happiness because all advertising looks alike to them.

All advertising is not alike. With but few exceptions, every advertisement you see has been carefully planned. It is a friend who is trying to whisper a message that you, yourself, may need, may be seeking. You may put into the discarded pile some thought which, if acted upon, would mean much—very much—to you.

In the advertisements appearing in this issue you will find romance, opportunity; in fact, messages that apply to everything that is sought in a day's life.

Read your advertisements carefully every day. Seek the message that they carry. Break the wrappers and peer inside. Every advertiser is trying to interest YOU. You can't afford to miss his message.

Voice of the People

The following correspondence has been offered for publication under this column:

Elyria, Ohio, April 24, 1921.
Rev. Charles J. Pearse,
First Baptist Church, Lorain.

Dear Sir:—
I saw in the Chronicle-Telegram that Lorain county clergymen ask the prosecutor to enforce the Sabbath law in regard to closing movies on Sunday.

Also noted in the Sunday paper that you were going to preach using as your subject "Sabbath." How can you preach from the Bible on "The Sabbath" and uphold Sunday the first day of the week, and the Sabbath as the seventh? As you know, if not, why not. What are you trying to pull off?

Now, you want to enforce a law that is against the Constitution of the United States, and the Law of God. Why don't you preach the Bible with the Power from God, and let the Devil and his Sunday Law go, for he is mad at the People that keep the Commandments of God. (Rev. 12-17., also Rev. 14-12).

Now, if you have any hot shots, fire your first Gun at me.
Hoping to hear from you soon, I remain as ever in The Fight for Liberty.

FRANK G. BATES,
585 W. Broad St., Elyria, O.
(Reply of April 27, 1921).

My Dear Mr. Bates:
The Jewish Sabbath is the Seventh Day, our Saturday. Glad to note your own distinction on this point.

We Worship on the Lord's Day, the first day of the week. If you wish to write those more interested, allow me to refer you to the Committee, as to closing ordinances headed by Rev. W. Brown, 20th St. and Reid.

Cordially,
C. J. PEARSE

Note what the Rev. Charles J. Pearse, pastor of the First Baptist church of Lorain says in regard to my letter. I don't think that he had his gun loaded for a bear and so he went to the Bush and he better take his Sunday with him, and he and his kind, can worship in Peace. Now, he says that The Jew-

ish Sabbath is the Seventh Day, our Saturday. (Read Genesis 2:1-4 and what Paul says 25 years after Christ was crucified, in Hebrew IV:1-14; Exodus XX:8-12, also, Matthew V:17-20).

Now, he says he is glad to note my distinction on this point. He also says from the Bush where he is, "We worship on the Lord's Day, the First Day of the week" (See Matthew XII 8, and this was the Seventh Day, and in Exodus XX:8-12, also Hebrew IV).

He says, "If you wish to write those most interested (and he is the President of the Association) allow me to refer you to the Committee as to Closing Ordinances headed by Rev. W. Brown, 20th St. and Reid."

Now, if Mr. Brown has anything to say from the bush let him speak, or anyone else if they want to go over the top. Let them get in the battle for God and Man.

Yours truly,
FRANK L. BATES,
585 W. Broad St., Elyria, O.
